

### Who Should Attend?

This program is designed for individuals who are responsible for assuring that their facility meets the compliance requirements for the Select Agent Rule. Safety Officers, Administrators, Laboratory Supervisors and individuals who have been designated as the "responsible facility official" are the intended target audience.

### Continuing Education Credit:

Continuing education credits will be offered, based upon 6 hours of instruction.

### Special Needs:

In compliance with the American Disabilities Act, individuals needing special accommodations should notify the NLTN Eastern Office at least two weeks prior to the workshop by calling 302-653-2841.

## Three Regional Seminars

# Complying With the Select Agent Rule

September 13  
Dallas, TX

September 15  
Los Angeles, CA

October 20  
Arlington, VA

**Objectives:** Upon completion of the program, participants will be able to:

- Discuss the compliance requirements of the Select Agent Rule.
- Describe, in detail, the components of a self-assessment in both BSL-2 and BSL-3 facilities and toxin laboratories.
- Evaluate the security of your facility as it relates to the Select Agent Rule.
- Describe architectural influences on the airflow and function of safety cabinets in laboratories.
- Review the registration and inspection process.
- Complete the necessary forms and package select agents appropriately for transfer.

**Seminar Schedule:**

|       |  |
|-------|--|
| 8:00  | Registration   |
| 9:00  | Reducing the potential threat for misuse of biological agents  |
| 9:30  | Biologic regulations, where does the Select Agent Rule fit in? |
| 10:15 | Break  |
| 10:30 | Understanding the responsibilities of the RFO                  |
| 11:15 | Completing the application package: the step-by-step process   |
| 12:15 | Lunch  |
| 1:15  | Completing the application packet continued                    |
| 2:30  | Documenting transfer of Select Agents.                         |
| 3:15  | Shipping and Handling of Select Agents.                        |
| 3:45  | On-site inspections—what to expect                             |
| 4:30  | Wrap-up and Evaluation   |
